Docket No.: 6192.0174.AA

Ho-Han Ryu

Serial No.: 09/882,043

Group Art Unit: 2814

Confirmation No.: 1375

Filed: June 18, 2001

Examiner: Shrinivas H. Rao

For: **LIQUID CRYSTAL DISPLAY MODULE FOR LIQUID CRYSTAL DISPLAY DEVICE
AND A METHOD FOR ASSEMBLING THE SAME**

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

REQUEST FOR REFUND

Sir:

The Attorneys associated with Customer Number 23345 and Deposit Account No. 23-1951 respectfully requests a refund of fees, which were incorrectly charged, in the amount of \$810.00 for the charge associated with the filing of a Request for Examination which was filed with the U.S. Patent and Trademark Office on February 3, 2009, for the above-identified application. Please refund the fee amount of \$810.00 directly to Attorney's Deposit Account No. 23-1951.

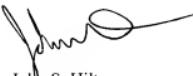

STATEMENT OF FACTS

On March 9, 2006 the Change of Power of Attorney, and Request for Change of Correspondence address was granted, therefore removing the practitioners associated with customer No. 23345 from any future liability/fees regarding the referenced case, see attached.

On February 3, 2009 a Petition to Revive the subject application was filed along with another Request for Continued Examination by Customer No. 32605. In the Statement in Support of Petition to Revive, the attorney associated with Customer No. 32605 granted permission to the USPTO to charge any underpayment of fees associated with the RCE or Petition to Revive to their Deposit Account of 50-2257, see attached, however, the underpayment of fees was incorrectly charged to Deposit Account No. 23-1951

Based on the above, a refund to Deposit Account of 23-1951, in the amount of \$810.00 is in order. Please credit Attorney's Deposit Account No. 23-1951 (McGuireWoods) for the amount of \$810.00. Acknowledgement of receipt is respectfully requested.

Respectfully submitted,

John S. Hilton

JW**STATEMENT UNDER 37 CFR 3.73(b)**

Applicant/Patent Owner: RYU, Ho-Han; and KWAK, Hee-June

Application No./Patent No./Control No.: 09/882,043 Filed/Issue Date: June 18, 2001

Entitled: LIQUID CRYSTAL DISPLAY MODULE FOR LIQUID CRYSTAL DISPLAY DEVICE AND A METHOD FOR ASSEMBLING THE SAME

Samsung Electronics Co., Ltd. a Corporation
(Name of Assignee)

(Type of Assignee: corporation, partnership, university, government agency, etc.)

states that it is:

1. the assignee of the entire right, title, and interest; or
2. an assignee of less than the entire right, title and interest
(The extent (by percentage) of its ownership interest is _____ %)

in the patent application/patent identified above by virtue of either:

A. An assignment from the inventor(s) of the patent application/patent identified above. The assignment was recorded in the United States Patent and Trademark Office at Reel 011926, Frame 0908, or a true copy of the original assignment is attached.

B. A chain of title from the inventor(s), of the patent application/patent identified above, to the current assignee as follows:

1. From: _____ To: _____
The document was recorded in the United States Patent and Trademark Office at
Reel _____, Frame _____, or for which a copy thereof is attached.

2. From: _____ To: _____
The document was recorded in the United States Patent and Trademark Office at
Reel _____, Frame _____, or for which a copy thereof is attached.

3. From: _____ To: _____
The document was recorded in the United States Patent and Trademark Office at
Reel _____, Frame _____, or for which a copy thereof is attached.

Additional documents in the chain of title are listed on a supplemental sheet.

As required by 37 CFR 3.73(b)(1)(i), the documentary evidence of the chain of title from the original owner to the assignee was, or concurrently is being, submitted for recordation pursuant to 37 CFR 3.11.

[NOTE: A separate copy (i.e., a true copy of the original assignment document(s)) must be submitted to Assignment Division in accordance with 37 CFR Part 3, to record the assignment in the records of the USPTO. See MPEP 302.08.]

The undersigned (whose title is supplied below) is authorized to act on behalf of the assignee.

Under the Paperwork Reduction Act of 1995, no person is required to respond to a collection of information unless it displays a valid OMB control number.

**PETITION FOR REVIVAL OF AN APPLICATION FOR PATENT
ABANDONED UNINTENTIONALLY UNDER 37 CFR 1.137(b)**

Docket Number (Optional)

AB-1604 US

First named inventor: Ho-Han Ryu

Application No.: 09/882,043

Art Unit: 2814

Filed: June 18, 2001

Examiner: Shrinivas Rao

Title: Liquid Crystal Display Module for Liquid Crystal Display Device and Method for Assembling the Same

Attention: Office of Petitions
Mall Stop Petition
 Commissioner for Patents
 P.O. Box 1450
 Alexandria, VA 22313-1450
 FAX (571) 273-8300

NOTE: If information or assistance is needed in completing this form, please contact Petitions Information at (571) 272-3282.

The above-identified application became abandoned for failure to file a timely and proper reply to a notice or action by the United States Patent and Trademark Office. The date of abandonment is the day after the expiration date of the period set for reply in the office notice or action plus an extension of time actually obtained.

APPLICANT HEREBY PETITIONS FOR REVIVAL OF THIS APPLICATION

NOTE: A grantable petition requires the following items:

- (1) Petition fee;
- (2) Reply and/or issue fee;
- (3) Terminal disclaimer with disclaimer fee - required for all utility and plant applications filed before June 8, 1995; and for all design applications; and
- (4) Statement that the entire delay was unintentional.

1. Petition fee

- Small entity-fee \$ _____ (37 CFR 1.17(m)). Applicant claims small entity status. See 37 CFR 1.27.
 Other than small entity - fee \$ 1,620.00 (37 CFR 1.17(m))

2. Reply and/or fee

- A. The reply and/or fee to the above-noted Office action in the form of Response to Advisory Action dated September 16, 2004 (identify type of reply):

- has been filed previously on _____.
 is enclosed herewith.

- B. The issue fee and publication fee (if applicable) of \$ _____.
 has been paid previously on _____.
 is enclosed herewith.

[Page 1 of 2]

This collection of information is required by 37 CFR 1.137(b). The information is required to obtain or retain a benefit by the public which is to file (end by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to take 1.0 hour to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Mail Stop Petition, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

3. Terminal disclaimer with disclaimer fee

- Since this utility/plant application was filed on or after June 8, 1995, no terminal disclaimer is required.
- A terminal disclaimer (and disclaimer fee (37 CFR 1.20(d)) of \$ _____ for a small entity or \$ _____ for other than a small entity) disclaiming the required period of time is enclosed herewith (see PTO/SB/63).

4. STATEMENT: The entire delay in filing the required reply from the due date for the required reply until the filing of a grantable petition under 37 CFR 1.137(b) was unintentional. [NOTE: The United States Patent and Trademark Office may require additional information if there is a question as to whether either the abandonment or the delay in filing a petition under 37 CFR 1.137(b) was unintentional (MPEP 711.03(c), subsections (III)(C) and (D)).]

WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

REQUEST FOR CONTINUED EXAMINATION (RCE)

SUBMISSION

Dear Sir:

In response to the Final Office Action dated May 18, 2004 and the Advisory Action dated September 16, 2004, Applicant submits the following amendments and remarks.

Request for Continued Examination (RCE) and RCE fee were previously filed on January 14, 2005.

IN THE CLAIMS

The following includes the entire set of pending claims including mark-ups.

Please amend Claims 1, 6, and 10.

Please cancel Claims 19-33.

1. (currently amended) A liquid crystal display (LCD) module, comprising:
a mold frame comprising a main panel, side walls surrounding the main panel and a first engaging hole formed through the main panel thereof;
a backlight assembly disposed on an upper surface of the main panel and comprising a light source;
a display unit disposed on the backlight assembly; and
a top chassis engaged with the mold frame to fix the backlight assembly and the display unit therebetween, the top chassis having a second engaging hole formed corresponding to the first engaging hole; and
an engaging device passing through the first and second engaging holes.
2. (previously presented) The LCD module of claim 1, wherein the light source comprises:
a lamp generating light;
a lamp holder engaged with both ends of the lamp to fix the lamp; and
a lamp cover covering the lamp.
3. (previously presented) The LCD module of claim 2, wherein the first engaging hole is overlapped with the lamp cover when viewed from a side of the mold frame where the lamp is positioned.
4. (previously presented) The LCD module of claim 1, further comprising a back cover disposed on a rear surface of the main panel,
wherein a third engaging hole is formed at a position on the back cover corresponding to the first engaging hole of the mold frame.

5. (previously presented) The LCD module of claim 1, wherein a plurality of the first and second engaging holes are formed in the mold frame and the top chassis, respectively.
6. (currently amended) A display device, comprising:
a mold frame comprising a main panel, sidewalls surrounding the main panel and a first engaging hole formed through the main panel;
a backlight assembly disposed on an upper surface of the main panel and comprising a light source;
a display panel disposed on the backlight assembly;
a top chassis engaged with the mold frame to fix the display unit and the backlight assembly therebetween, the top chassis having a second engaging hole formed corresponding to the first engaging hole;
a case having a catching member; and
an engaging device having [[an]] one end engaged with the catching member, the engaging device penetrating through the first and second engaging holes to assemble the mold frame and the top chassis.
7. (previously presented) The display device of claim 6, wherein the light source comprises:
a lamp for generating light;
a lamp holder engaged with both ends of the lamp to fix the lamp; and
a lamp cover covering the lamp.
8. (previously presented) The display device of claim 7, wherein the first engaging hole is overlapped with the lamp cover when viewed from a side where the lamp is positioned.
9. (previously presented) The display device of claim 6, further comprising a back cover formed on a bottom surface of the mold frame.
10. (currently amended) The display device of claim 6, wherein a plurality of the catching members are formed on [an] a bottom surface of the case.

11. (previously presented) The display device of claim 6, wherein the catching member is integrally formed with the case and comprises a support surface extending from and in parallel to a bottom surface of the case.
12. (previously presented) The display device of claim 11, wherein the catching member further comprises a through-hole formed at a center portion of the support surface and receiving an end of the engaging device.
13. (previously presented) The display device of claim 12, wherein the catching member further comprises a guide recess formed extending from the through hole to a side of the support surface for guiding the engaging device to the through-hole.
14. (previously presented) The display device of claim 13, wherein the engaging device comprises:
- a first engaging member comprising:
- a head portion wider than the through-hole and engaged with the catching member;
- a body portion penetrating through the first and second engaging holes and protruding from a bottom surface of the mold frame; and
- an end portion having screw recess; and
- a second engaging member engaged with the screw recess of the first engaging member to fix the mold frame and the top chassis to the case.
15. (previously presented) The display device of claim 14, wherein a portion of the body portion adjacent to the head portion has a first thickness between a first side and a second side is smaller than a width of the guide recess.
16. (previously presented) The display device of claim 15, wherein the portion of the body portion adjacent to the head portion has a second thickness between a third side and a fourth side is greater than the width of the guide recess.
17. (previously presented) The display device according of claim 6, comprising a plurality of first engaging holes and a plurality of second engaging holes.

18. (previously presented) The display device of claim 6, wherein the case is a front case.
- 19-33. (canceled)
34. (previously presented) The display device of claim 9, wherein the back cover has a third engaging hole positioned corresponding to the first engaging hole
35. (previously presented) The display device of claim 34, wherein the engaging device penetrates through the first engaging hole, the second engaging hole and the third engaging hole.
36. (previously presented) A display module, comprising:
a mold frame comprising a main panel, side walls surrounding the main panel and a first hole formed through the main panel;
a backlight assembly disposed on the mold frame;
a display panel disposed on the backlight assembly;
a top chassis disposed on the display panel and having a second hole formed corresponding to the first hole; and
an engaging device penetrating through the first hole and the second hole to fix the backlight assembly and the display panel between the mold framed and the top chassis.

FAX (949) 752-7049

REMARKS

Claims 1-18 and 34-36 are pending. The rejections of the claims are respectfully traversed in light of the amendments and following remarks, and reconsideration is requested.

Rejections Under 35 U.S.C. § 102

Claims 1-18 and 34-36 are rejected under 35 U.S.C. § 102(e) as being anticipated by Ha et al. (U.S. Patent No. 6,593,979) (hereinafter "Ha").

In rejecting the claims, the Examiner alleges in part in the Final Office Action dated May 18, 2004 that "Ha at least in figure 5 . . . shows engaging hole (410) in mold frame 400 and further the top chassis (300) having a second engaging hole (310) formed corresponding to the first engaging hole (410 seen in figure 1)". The Examiner further alleges in part that Ha teaches in figure 1 "screws (not numbered) penetrate through holes 310 and 410" (e.g., fastening screws 786).

However, Ha clearly discloses that screw 786 does not pass through holes 310 and 410 (Ha, FIGS. 12-15) but passes outside the holes 310 and 410 (see in particular FIGS. 14 and 15, screw 786 passing outside of chassis 300 and mold frame 400).

In contrast, the present disclosure is directed toward a mold frame having an engaging hole, a top chassis engaged with the mold frame to fix the backlight assembly and the display unit therebetween with the top chassis having a second engaging hole, and an engaging device passing through the first and second engaging holes.

In particular, amended Claim 1 recites "a mold frame comprising a main panel, side walls surrounding the main panel and a first engaging hole formed through the main panel thereof; . . . a top chassis engaged with the mold frame to fix the backlight assembly and the display unit therebetween, the top chassis having a second engaging hole formed corresponding to the first engaging hole; and an engaging device passing through the first and second engaging holes," in addition to other limitations.

Similarly, Claim 6 recites "a mold frame comprising a main panel, sidewalls surrounding the main panel and a first engaging hole formed through the main panel; . . . a top chassis engaged with the mold frame to fix the display unit and the backlight assembly therebetween, the top chassis having a second engaging hole formed corresponding to the first

engaging hole; . . . and an engaging device having one end engaged with the catching member, the engaging device penetrating through the first and second engaging holes to assemble the mold frame and the top chassis" in addition to other limitations.

Similarly, Claim 36 recites "a mold frame comprising a main panel, side walls surrounding the main panel and a first hole formed through the main panel; . . . a top chassis disposed on the display panel and having a second hole formed corresponding to the first hole; and an engaging device penetrating through the first hole and the second hole to fix the backlight assembly and the display panel between the mold framed and the top chassis," in addition to other limitations.

Thus, because the cited references do not disclose or suggest all the limitations of Claims 1, 6, and 36, Claims 1, 6, and 36 are patentable over the cited references.

Claims 2-5 and 7-18, 34-35 are dependent upon Claims 1 and 6, respectively, and contain additional limitations that further distinguish them from the cited references. Therefore, Claims 2-5 and 7-18, 34-35 are allowable over the cited references for at least the same reasons provided above for Claims 1 and 6, respectively.

Accordingly, Applicants request withdrawal of the rejections under 35 U.S.C. § 102.

CONCLUSION

For the above reasons, Applicant believes Claims 1-18 and 34-36 are now in condition for allowance and allowance of the Application is hereby solicited. If the Examiner should have any questions, please telephone Applicant's Attorney at (949) 752-7040.

**STATEMENT IN SUPPORT OF PETITION TO REVIVE
UNDER 37 CFR 1.137(b)**

Dear Sir:

I am the previous attorney of record who handled the above case from its filing date to on or about December 8, 2005. I hereby state that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition under 37 CFR 1.137(b) was unintentional.

A Final Rejection was mailed by the U.S. Patent Office on May 18, 2004 and Applicant filed a Response on August 13, 2004. Thereafter, an Advisory Action was mailed on September 16, 2004 and Applicant filed a Notice of Appeal on November 17, 2004 followed by a Request for Continued Examination (RCE) on January 14, 2005. The

RCE was filed with an Information Disclosure Statement. It was Applicant's understanding that the Request for Continued Examination would continue to keep the prosecution open and it was never Applicant's or my intent to abandon the case. A Petition to Withdraw Holding of Abandonment was filed on July 27, 2005 and we have been waiting for over three years for the Petition to get a decision. Hence, the entire delay from November 18, 2004 to the date this statement is submitted is unintentional.

The Commissioner is authorized to charge any underpayment or credit any overpayment to Deposit Account No. 50-2257 for any matter in connection with this response, including any fee for extension of time and/or fee for additional claims, which may be required.

This Acknowledgement Receipt evidences receipt on the noted date by the USPTO of the indicated documents, characterized by the applicant, and including page counts, where applicable. It serves as evidence of receipt similar to a Post Card, as described in MPEP 503.

New Applications Under 35 U.S.C. 111

If a new application is being filed and the application includes the necessary components for a filing date (see 37 CFR 1.53(b)-(d) and MPEP 506), a Filing Receipt (37 CFR 1.54) will be issued in due course and the date shown on this Acknowledgement Receipt will establish the filing date of the application.

National Stage of an International Application under 35 U.S.C. 371

If a timely submission to enter the national stage of an international application is compliant with the conditions of 35 U.S.C. 371 and other applicable requirements a Form PCT/DO/EO/903 indicating acceptance of the application as a national stage submission under 35 U.S.C. 371 will be issued in addition to the Filing Receipt, in due course.

New International Application Filed with the USPTO as a Receiving Office

If a new international application is being filed and the international application includes the necessary components for an international filing date (see PCT Article 11 and MPEP 1810), a Notification of the International Application Number and of the International Filing Date (Form PCT/RO/105) will be issued in due course, subject to prescriptions concerning national security, and the date shown on this Acknowledgement Receipt will establish the international filing date of the application.

Under the Paperwork Reduction Act of 1985, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

This collection of information is required by 37 CFR 1.5. The information is required to obtain or retain a benefit by the public which is to be rendered by the USPTO to process an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to cost \$20 to complete, including gathering, preparing, and maintaining the collection of information. This is an estimate only. Times will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

Effective on 12/08/2004.

Fees pursuant to the Consolidated Appropriations Act, 2005 (H.R. 4810).

FEE TRANSMITTAL For FY 2009
